RE: North Lily Project
PRO/023/007
Juab County, Utah

Dear Mr. Quigley:

The submitted tailing and dump reprocessing plans received at the Division on August 30, 1983 are currently under review by the Division staff pursuant to Title 40-8-13 of the Mined Land Reclamation Act. When the review is completed, a letter with existing questions and concerns (if any) will be returned to you. Regardless of whether the ownership of the property is fee, State or Federal the permitting of the operation will need to be completed prior to construction.

It is fortunate that you have begun to expedite matters with other State agencies. I hope you have contacted everyone, particularly at the State Health Department. Normally, both agencies would have collaborated on a joint "pre-design meeting" to acquaint you with all aspects of the regulatory process.

Sincerely,

THOMAS N. TETTING
ENGINEERING GEOLOGIST
